

SPECIFICATIONS:

Hopper capacity	: 10 Kg
Power supply	: 230 VAC
Power consumption	: 350 Watts
Air consumption	: 80-200 CFM
Dry ice consumption	: 15-30 Kg/hr
Blast pressure	: 3-8 bar
Type of dry ice (block/pellet)	: Pellet (1.5 -3mm)
Noise level	: 80-100 db
Air hose connection	: 3/4" BSP
Size	: 350 x 450 x 800 mm
Weight	: 50 Kg

B10-E

KEY FEATURES:

- User friendly control panel.
- Single hose for Fast and efficient cleaning.
- Light in weight and compact.
- Adjustable blast pressure from 2-14 bar.
- Variable dry ice feed rate to control cleaning aggression.
- Operates with 1.7 & 3 mm pellets.
- Fully enclosed robust stainless steel cabinet.
- Blast hose length to suite requirements.
